Safety Instructions:

- Ensure that the office chair has been designed and manufactured in accordance with general safety requirements.
- Carry out regular checks of the adjustment mechanisms for safety and functionality.
- Provide information on the safe use and storage of the product, including specific instructions on height adjustment and armrest adjustment.
- Please indicate the possible use of double safety castors that are suitable for all surfaces.
- Clearly communicate the chair's maximum load capacity of 110 kg.
- Mention that the chair should be ergonomically designed for people with special needs (e.g. tall or heavy people).
- Inform customers about the correct care of the upholstery fabric to ensure durability and safety.
- Provide information on return options in the event of safety concerns.
