Safety Instructions:

- Not suitable for children under 3 years, choking hazard due to small parts.
- Risk of slipping if the mat is wet or damp, especially if the surface is unsuitable.
- Only wash the product in industrial washing machines to avoid damage; do not exceed a maximum temperature of 70 °C when washing and 80 °C when drying.
- Ensure that the mat is used on a clean, dry and level surface to avoid the risk of slipping.
- Regular cleaning is required to ensure hygiene and prevent odours. Remove heavy soiling in good time.
- The mat is flame retardant according to fire class Bfl/S1, do not use near open flames or extreme heat situations.
- Protect from direct sunlight to avoid colour fading.
- The mat should not be used as a toy; regular inspection for damage is necessary.
- Keep out of reach of pets and small children to avoid damage and choking hazards.
- Avoid contact with sharp objects to prevent damage to the mat.
- Information on correct use and maintenance to ensure safe use.
- Compliance with the recommendations for the number of wash cycles (max. 200) to ensure functionality.
