

# Product Safety Information

**dirt-trapping mat miltex Eazycare Style, angular, antistatic,  
UV-resistant, washable, high twist nylon & Niltril rubber, 850 x 1500  
mm, various colours**

**Manufacturer/Responsible Person:** Miltex GmbH, Ohmstraße 2, 68519 Viernheim, Deutschland  
**E-Mail:** info@miltex.de

Please note the technical data of the products!

**Article Numbers:** 157973, 157972, 157971, 157970, 157969, 157968, 157967, 157966, 157965, 157964, 157963, 157962, 157961, 157960, 157959, 157958, 157957, 157956, 157955, 157954, 157953, 157952, 157951

## Safety Instructions:

- Choking hazard due to small parts can occur if parts of the mat are loosened.
- Observe the maximum washing temperature of 70 °C to avoid material damage. If heavily soiled, clean in industrial washing machines.
- Dry in a tumble dryer at a maximum of 80 °C to prevent damage.
- Observe maximum temperatures: Washing machine up to 70 °C, tumble dryer up to 80 °C.
- There is a risk of slipping in wet conditions; use the mat on non-slip surfaces and clean regularly to maintain slip resistance.
- Fire hazard due to improper use, as flame retardant according to fire class Bfl/S1; protect from naked flames.
- Not suitable for extremely high temperatures or direct exposure to fire/heat.
- Avoid contact with intense sunlight, direct heat sources or sharp objects to prevent damage.
- Suitable for indoor and limited outdoor use; not for extreme weather conditions or smooth surfaces without additional grip.
- Avoid using strong chemicals or aggressive cleaning agents to maintain the integrity of the material.
- Regular cleaning recommended to maintain dirt absorption and hygiene standards.
- In case of heavy soiling or intensive use, carry out regular maintenance and cleaning.
- Shake out or vacuum the mat before use to remove loose fibres and maximise dirt absorption.
- Suitable for industrial use in compliance with the specific cleaning and washing instructions.
