Safety Instructions:

- Risk of slipping: Always lay the mat on a non-slip surface, ensure dry and clean use, regular cleaning and checking for damage recommended.
- Fire hazard: Do not use near open flames or hot surfaces, even if flame retardant according to fire class Bfl/S1.
- Choking hazard: Be careful with small parts, the mat is not suitable for children under 3 years of age or for use as a play mat.
- Storage and cleaning: Mat must be completely dry before use, recommended washing temperature max. 70 °C, tumble dryer max. 80 °C; avoid excessive moisture or direct sunlight.
- Chemical safety: Avoid contact with harsh or aggressive cleaning agents to reduce material damage and health risks.
- Restrictions on use: Use only for specific areas of application, do not use in heavily frequented or extreme weather areas without suitable measures.
- Care instructions: Regular cleaning recommended to avoid hygiene deficiencies and odours, shake out or vacuum before machine washing.
- Mechanical loads: No excessive loads to avoid damaging the mat.
- Store out of the reach of children and pets to avoid the risk of suffocation.
