Safety Instructions:

- Maximum load capacity up to 20 kg. Overloading can lead to damage.
- Risk of suffocation due to plastic parts if handled incorrectly.
- Make sure to stack the container carefully to prevent it from tipping over. Be careful when stacking the containers to avoid the risk of tipping.
- Use only in the intended manner to avoid injury.
- When using with heavy loads, ensure that the surface is stable.
- Check handles for damage before use.
- Protect the product from extreme heat and cold.
- Use suitable carrying aids for transporting heavy loads.
- Use ergonomic handling of the handles to avoid injuries.
