Safety Instructions:

- Not suitable for children under 3 years of age due to small parts that may pose a choking hazard.
- Product should not be used in extreme temperatures above -20°C to +100°C to avoid damage.
- In the event of damage or improper use, there is a risk of injury.
- Avoid darkness or moisture so as not to weaken or damage the material.
- Caution: This container is not suitable for contact with food without prior testing.
- Do not exceed the maximum load capacity of 20 kg.
- Avoid contact with chemical substances that could damage the container.
- Using the container on conveyor lines can cause noise.
- Ensure that the container is properly closed to prevent the contents from leaking.
