

# Product Safety Information

## **Euro Box lightweight container ELB 6220, made of PP, capacity 43.7 L, with lid**

**Manufacturer/Responsible Person:** Schäfer Shop GmbH, Industriestraße 65, 57518 Betzdorf, Deutschland

**E-Mail:** info@schaefer-shop.de

Please note the technical data of the products!

**Article Numbers:** 150732, 150733, 150734

### **Safety Instructions:**

- Ensure that the container is temperature-resistant and is used between -20°C and +100°C to prevent material damage.
- When handling heavy containers (load capacity up to 20 kg), use correct lifting techniques to avoid injury and ensure that the load capacity is not exceeded.
- The product is resistant to most oils, acids and alkalis, but should not come into direct contact with aggressive chemicals in order to protect product integrity.
- Container is stackable; ensure stable stacking to prevent tipping.
- Smooth interior walls allow easy cleaning; chemical cleaning agents should be tested to avoid material damage.
- Keep the container out of the reach of small children as it may be attractive to them.
- Not suitable for transporting foodstuffs unless labelled accordingly.
- The container may break or be damaged if used incorrectly.
- Watch out for sharp or pointed objects that could damage the container.
- Children should only handle the product under adult supervision.
- Clean thoroughly before first use to remove manufacturing residues.
