

Product Safety Information

Stacking bin 14/6-3, made of polypropylene, various designs

Manufacturer/Responsible Person: Schäfer Shop GmbH, Industriestraße 65, 57518 Betzdorf, Deutschland

E-Mail: info@schaefer-shop.de

Please note the technical data of the products!

Article Numbers: 90963, 90962, 90961, 90960, 90936, 90935, 90934

Safety Instructions:

- Before use, ensure that the stacking box is suitable for the intended application.
- Do not load beyond the permissible load capacity to avoid instability.
- When using on conveyor lines, be aware of the potential risk of injury from moving parts.
- Easy cleaning due to smooth interior walls, but cleaning instructions for chemicals must be observed.
- Temperature resistant from -20 °C to +100 °C, avoid direct heat sources.
- Keep out of the reach of children to prevent misunderstanding as a toy and to avoid the risk of choking on small parts.
- Not suitable for children under 3 years of age as small parts can be swallowed.
- Improper use can lead to deformation and risk of injury.
- Avoid extreme temperatures above 100 °C or below -20 °C to maintain structural integrity.
- Protect from direct sunlight to avoid material fatigue and discolouration.
- Check for cracks or damage before use.
- Additional safety and disposal information is included in the scope of delivery.
- Stack stably to prevent tipping.
- Do not overload handles and label holders to prevent damage.
- Do not stack or overload if this is not intended to avoid stability problems.
- Avoid sharp or cutting objects to prevent damage.
- Take protective measures during handling to avoid injury.
- Do not use strongly acidic or alkaline substances to prevent material damage.
- Not suitable for direct contact with food.
- Place on stable and level surfaces to minimise the risk of falling over.
