Please note the technical data of the products!

**Article Numbers:** 150989, 150925

### Safety Instructions:

- Use food-safe materials.
- Suitable for storage at temperatures between -30 °C and +60 °C. Not suitable for storage at temperatures above 60 °C to avoid deformation of the material.
- Ensure structural integrity during use, especially when stacking.
- Ensure that the crate is cleaned regularly if it is used for the transport and storage of food.
- Protect from direct sunlight to prevent discolouration or material damage.
- Make sure that the crate is stable and securely stacked during transport to prevent it from tipping over.
- Use by children only under supervision, as the box may contain objects that could potentially pose a choking hazard.
