Please note the technical data of the products!

Article Numbers: 92802, 92844, 92845, 92805, 92803, 92846, 92807

Safety Instructions:

- Observe the maximum load capacity of 30 kg to avoid the risk of breakage.
- Not suitable for children under 3 years of age as small parts may be present.
- Only use under adult supervision if children are in the vicinity.
- Not suitable for food packaging (may release chemical substances) unless labelled as food safe.
- Only use in the temperature range -20°C to +100°C to avoid damaging the product.
- Avoid contact with organic solvents, aggressive chemicals and sharp objects.
- Protect from direct sunlight to avoid discolouration or material damage.
- Risk of slipping and tipping if overloaded or used improperly; ensure secure footing and stability.
- Store safely to prevent falls.
- Use suitable gloves to prevent injuries from sharp edges.
- Only use cleaning agents compatible with polypropylene to avoid damaging the material.
- The product is resistant to most oils, alkalis and acids; however, improper use will result in damage.
- Consult the instructions for use if you are unsure.
- Only suitable for the storage of non-hazardous substances.
