Article Numbers: 178312, 178311

Safety Instructions:

- Risk of suffocation due to improper assembly or installation.
- Risk of injury due to improper use or use in extreme weather conditions.
- Ensure that the sign is positioned within sight of the defibrillators so that they can be identified quickly in an emergency.
- Avoid confusion through clear and unambiguous signage.
- In the event of damage to the sign or greenery that impairs visibility, replace or repair it immediately.
- The sign is intended to make a defibrillator easy to find and should therefore be clearly visible and have a high contrast.
- The product is weatherproof, but avoid extreme weather conditions that could impair visibility.
- The sign lights up at night; regular cleaning recommended to maintain the luminosity.
- Make sure that the sign is placed in a location where it is not covered by other objects to ensure optimum visibility.
- The lack of drill holes can lead to the sign being easily torn off; make sure it is securely fastened.
