Please note the technical data of the products!

Article Numbers: 35093, 35092, 35091, 34929, 34928, 34927, 34439, 34438, 34437, 33663, 33662, 33661, 33538, 33537, 33536, 33494, 33493, 33492

Safety Instructions:

- Do not exceed the maximum shelf load of 500 kg to avoid stability and breakage.
- Do not exceed the maximum bay load of 2500 kg. Load should be evenly distributed to prevent tipping.
- The shelf must be mounted on a stable, level surface to ensure safety.
- Only use the materials and fasteners recommended by the manufacturer for mounting.
- Read the installation instructions carefully and follow them precisely to ensure correct and safe installation.
- Ensure that the loads on the shelves are evenly distributed to avoid structural instability.
- Wear suitable personal protective equipment (e.g. gloves, safety goggles) during assembly and when handling heavy loads.
- Keep children and unauthorised persons away from the construction site during assembly and use to minimise the risk of injury.
- Check shelving regularly for stability and possible damage, especially after assembly or when heavily loaded.
- Not suitable for outdoor use to avoid damage from the weather.
- Avoid transforming the product for other purposes or disregarding the maximum loads to prevent damage and injury.
- When using chipboard or other additional equipment, pay attention to their load-bearing capacity and safety requirements.
