Article Numbers: 33463, 33462, 33460, 33459

Safety Instructions:

- Not suitable for loading by forklift truck.
- Field load must not exceed 1200 kg or 1800 kg; these must not be exceeded in order to avoid overloading and instability.
- Ensure suitable positioning and anchoring of the shelf to prevent it from tipping over.
- The shelf should be mounted on a level and stable surface.
- The use of chipboard to fill the shelves is required and must be ordered separately as it is not included in the scope of delivery.
- Instructions for assembly and use must be followed carefully to minimise safety risks.
- Monitoring and regular inspection of the racking system is recommended to ensure structural integrity.
- There is a risk of injury due to falling objects if the system is not installed correctly.
