Safety Instructions:

- Not suitable for loading by forklift truck.
- Observe maximum bay load: 1200 kg or 1800 kg.
- Check shelving regularly for stability and condition.
- Ensure correct fastening and stability during assembly. Check the stability of the shelf before assembly.
- Ensure that the shelf is not overloaded. Do not overload the shelf to avoid structural damage. The maximum bay load of 1800 kg must not be exceeded.
- Chipboard not included in scope of delivery; order separately.
- Assemble the shelving unit in accordance with the assembly instructions. Follow the safety instructions for assembly and use.
- Shelf is not suitable for children.
- For additional safety: fix the shelf to the wall.
- Wear suitable protective equipment during installation.
- Keep the area around the shelf free of obstacles.
- Make sure that the shelf is on a level surface.
