Article Number: 168014

Safety Instructions:

- The wall mount may only be installed with a flat screen that does not exceed the maximum size and weight specifications: up to 86 inches and 120 kg.
- Ensure that the wall bracket is mounted on a stable and secure wall to prevent the display from falling.
- Make sure that no moisture gets into the motor unit during electrical use to avoid the risk of short circuits.
- The anti-collision protection should not be bypassed or deactivated in order to avoid injuries caused by collisions with obstacles.
- Improper handling of the remote control can lead to unwanted movements of the display, therefore only authorised persons should use the control.
- The cable remote control must be kept out of the reach of children to prevent choking or other injuries.
