Safety Instructions:

- Make sure that the trolley is only used for screens and laptops with a maximum diagonal of 24 inches.
- Regularly check the functionality and safety of the electrical components to avoid the risk of electric shock.
- Secure the height of the trolley to prevent it from falling over or tipping, especially if the load is unevenly distributed.
- Make sure that the lockable castors function properly to ensure the stability of the trolley.
- Keep the trolley away from moisture and liquids to prevent electrical damage or short circuits.
- Ensure that no tensile forces are exerted on the electrical components when using the trolley to prevent damage.
- Avoid exceeding the recommended maximum load of 14.1 kg to prevent injury or damage.
- Keep the device clean and disinfect it regularly to comply with hygiene standards in medical environments.
