

# Product Safety Information

## Add-on bay, boltless shelving system R 3000, width 1025 mm, galvanised

Please note the technical data of the products!

**Article Numbers:** 28753, 28752, 28751, 28750, 28749, 28745, 28741, 28740, 28739, 28738, 28732, 28731, 28730, 28729, 28728

### Safety Instructions:

- Note maximum load capacity: 100 kg or 200 kg per shelf - depending on model and combination. Pay attention to the exact dimensions (100 kg for W 1025 x D 300/400/500/600 mm; 200 kg for W 1025 x D 800 mm).
- Place the shelf on a level and stable surface to prevent stability and tipping.
- Assemble and stabilise the shelving in accordance with the assembly instructions, use cross bracing for additional stability.
- Only suitable for commercial applications, not for end users without appropriate training.
- Check the shelving unit regularly for damage and stability, especially the connecting elements.
- Observe the safety measures for heavy lifting and when assembling, store heavy objects at the bottom and lighter objects at the top.
- Children should not have access to the shelf to prevent injuries.
- Do not exceed the maximum load capacity to avoid overloading and damage.
- Protect galvanised parts from aggressive cleaning agents to prevent corrosion and skin injuries from sharp edges.
- When used in high-bay warehouses, consider additional safety devices and use suitable lifting aids for heavy weights.
- Warnings and safety instructions must be available in understandable language and users should be informed about the maximum load capacity per floor.
