Safety Instructions:

- Place the product on a stable surface before use to prevent it from tipping over.
- When installing, use the enclosed fixings correctly and ensure that all plugs and fixings used comply with the brand guidelines.
- Do not exceed the shelf load according to the stated specifications. Avoid overloading to prevent structural damage.
- Check the shelf regularly for stability and tightness of the connections.
- Ensure protection from moisture, heat sources and extreme temperatures.
- Avoid sharp edges and pointed parts during handling.
- Children should be kept away from using and dismantling the shelf. Use child safety locks and ensure that children do not play with the shelf.
- Provide safety information in accordance with the applicable technical requirements.
- Secure the shelf to the wall or floor to prevent it from falling over.
- Use only for the intended application, do not apply excessive load.
- Follow the user manual and specific installation instructions.
- Shelving is designed for the proper storage of long goods in a vertical position, please note the permissible weight and the achievable stability.
- Use the fixings provided for shelves to ensure stability, especially for single-sided or double-sided versions.
- Follow safety precautions when handling heavy loads to avoid injury.
- The product is not suitable for use by children under the age of 12.
- Ensure that the shelf is properly assembled and secured to prevent it from falling over and causing injury.
- Wear suitable personal protective equipment (PPE), such as gloves and safety goggles, when assembling the shelving.
