Safety Instructions:

- Ensure that the shelf is securely fastened and anchored to prevent it from tipping over. Use the dowels and screws supplied to ensure stability.
- Follow suitable protective measures during assembly and disassembly to avoid injury. Read the assembly instructions carefully before assembling the shelf.
- Avoid overloading so as not to jeopardise the structural integrity of the shelving. Regularly check the condition of the shelving unit for damage or wear.
- The shelving is not suitable for the storage of hazardous goods or substances.
- The product is not suitable for use by children. To prevent injury, do not allow children to use the shelf as play equipment. Keep children away from the shelf assembly and use.
- Ensure that the shelf is properly installed to prevent it from tipping over. Ensure the use of suitable fixings for stability.
- Take protective measures to prevent injuries from falling long items.
- Protect the shelf from moisture to prevent corrosion of the metal parts.
- If necessary, provide warnings on the use and assembly of the shelving and provide them in a language that is easy to understand.
