Safety Instructions:

- Do not exceed the load capacity of 300 kg to avoid overloading.
- Ensure correct handling of ESD materials to prevent damage from electrical discharges.
- Use the product on stable surfaces to prevent it from tipping over.
- Affix safety instructions and warnings on the packaging in a clearly visible position.
- Read the operating instructions and safety information carefully before using the drum roller.
- Wear suitable protective equipment for the transport of hazardous substances.
- When using outdoors, watch out for UV radiation as the material can age slowly.
- Do not use aggressive chemicals in areas with high temperatures in order to avoid material damage.
