Safety Instructions:

- Follow the instructions for the safe storage of pressurised gas cylinders.
- Avoid naked flames or sparks in the vicinity of the bottle cabinet.
- Ensure that the cabinet is regularly checked for leaks or damage.
- Keep the area around the cabinet free of flammable materials.
- Secure the bottles in the cabinet to prevent them from falling over.
- The cabinet may only be used by trained personnel.
- For indoor use only.
- Always store pressurised gas cylinders upright.
- Protect from direct sunlight and heat sources.
- Exhaust air connection required for explosion protection.
- Keep the hinged door closed during operation.
- Ensure a suitable exhaust air system.
- Caution: Danger due to pressurised gas and possible explosion.
