Safety Instructions:

- Use only for gas cylinders with a maximum diameter of 140 mm. Never use other sizes.
- The bracket must be mounted professionally and stably on the wall to prevent it from tipping over and causing injury.
- The local regulations for the storage of hazardous substances must be observed before installation.
- The materials used must be corrosion-resistant in order to guarantee the durability of the bracket.
- The bracket must be checked regularly for damage or wear.
- A child lock should be installed to prevent unauthorised access.
- Use a chain safety device to prevent the gas cylinders from falling.
- Do not overload the holder with more than two gas cylinders.
- Avoid direct sunlight and high temperatures.
- Before installation, ensure that the wall is sufficiently stable.
