Safety Instructions:

- Attach the wall bracket securely to a stable wall to prevent the gas cylinders from tipping over.
- Before installation, check the load-bearing capacity of the wall and bracket and install the bracket taking into account the maximum load-bearing capacity.
- Securely fasten gas cylinders with the chain lock to prevent them from tipping over.
- The holder is only intended for use with gas cylinders with a diameter of 230 mm and a maximum of 3 gas cylinders.
- Check the bracket regularly for damage, especially the chain lock, and replace it immediately if it is damaged or worn.
- Mount the bracket out of the reach of children and keep the surrounding area free of flammable materials.
- Wear personal protective equipment when handling gas cylinders to avoid injury.
- Do not expose gas cylinders to direct sunlight or high temperatures.
- Protect yourself from the risk of suffocation and avoid direct contact with harmful gases from the cylinders.
