Safety Instructions:

- Ensure that the gas cylinders are properly secured and fastened with a chain safety device to prevent them from falling over.
- Only use for the intended gas cylinders to avoid overloading.
- In the event of damage or signs of wear, remove the bracket from service immediately and carry out regular checks.
- Wear suitable protective equipment such as protective clothing and gloves to avoid contact with hazardous substances.
- Avoid high temperatures or naked flames in the vicinity of the gas cylinder.
- The bracket must be mounted on a stable, non-flammable surface.
