Article Numbers: 33065, 33064, 33063

Safety Instructions:

- Do not load the shelf above the specified maximum load: max. 200 kg for W 900 mm and max. 180 kg for W 1200/1500 mm to avoid the risk of falling and injury.
- Make sure that the shelves are placed on a stable, level surface to prevent them from wobbling or tipping over.
- Shelves are suitable for the storage of food, hygienic conditions and regulations must be observed.
- Do not store shelves in damp or corrosive environments; avoid contact with excessively damp or aggressive substances to prevent corrosion.
- Safety instructions and instructions for use should be provided in a language understandable to the consumer.
- Ensure that the instructions and safety information are observed when assembling and installing the shelving.
- When used in cold storage and deep-freeze rooms, regular checks for rust and damage must be carried out.
- Ensure that all parts of the shelf are correctly assembled to avoid safety risks.
- Inform all consumers about correct handling to minimise hazards.
