Article Numbers: 32857, 32856, 32855

Safety Instructions:

- Follow the safety instructions for proper assembly and use of the shelving unit.
- Mount the shelf on a stable and level surface to prevent it from tipping over.
- Use accessories such as diagonal braces and wall fixings according to the instructions to ensure stability.
- Carry out regular checks for damage and wear, especially of the shelves and fastening elements.
- Observe maximum load per shelf (max. 150 kg for W 875 mm).
- Load the shelf according to the maximum loads (W 875 mm = max. 150 kg).
- Stabilise shelving, especially in rows, diagonal crosses are recommended.
- Include warnings on safe installation and use to minimise the risk of accidents.
- Use shelves in humid environments in accordance with food safety regulations to prevent corrosion.
- Provide operating instructions and safety information in understandable language.
- When assembling rows of shelves, use diagonal crosses for stabilisation.
- Use corner connection clamps for mounting over corners to ensure safety standards.
- Anchor the shelf when attached to a wall to provide additional stability.
- Fix adjustable shelves properly in the grid (150 mm).
- Only use with the intended accessories.
