Article Numbers: 32863, 32862, 32861

Safety Instructions:

- Avoid overloading the shelves beyond the maximum recommended load capacity of 100 kg per shelf.
- Secure rows of shelving with diagonal braces to prevent instability.
- Use the correct wall fixings for additional stability when mounting and to prevent tipping.
- Ensure that all connections and corner connection clips are properly installed.
- Store food in compliance with hygiene and safety standards.
- Observe the correct temperature specifications and take additional safety precautions when using in cold storage and deep-freeze rooms.
- The shelves are not suitable for use outside the intended framework.
- Only use the recommended shelves and accessories to ensure stability.
- Protect the shelves from excessive moisture to prevent corrosion.
- Avoid sharp edges or rough surfaces that could cause injury.
- Make sure that children do not play with or climb on the shelf to minimise injuries.
- Avoid overloading the shelves, especially with mobile shelves.
- Make sure that no sharp or heavy objects damage the shelves.
- Only assemble the shelf in accordance with the instructions for safe use and assembly.
