Please note the technical data of the products!

**Article Numbers:** 32825, 32824, 32823

### Safety Instructions:

- Do not exceed the maximum load of 100 kg per shelf.
- Ensure that the shelf is stable to prevent it from tipping over.
- Only use the shelf for its intended purpose and do not overload it.
- Use the shelf in suitable, hygienic and corrosion-protected environments.
- Follow the instructions for assembly and fastening to walls.
- Use a diagonal cross for stabilisation, especially for high shelves.
- Only use accessories such as wall fixings in accordance with the instructions.
- For additional stability, we recommend using corner connection clamps.
- Observe the safety instructions for use in cold storage and deep-freeze rooms.
- Protect the shelf from overloading and improper handling.
- During installation, ensure that all required fastenings and accessories are properly attached.
- Place the shelf on a stable and level surface.
- Wear gloves to avoid injury during assembly.
- Hygienic cleaning required as intended for food storage.
- Edges on the shelves are a potential risk of injury, use rounded edges if necessary.
- Shelf is not suitable for outdoor use to avoid corrosion.
