Safety Instructions:

- Product only suitable for monitors up to 15 kg.
- The monitor arm must be securely attached to the support column to prevent the monitor from falling.
- The manufacturer's instructions must be followed for installation and adjustment.
- When using the product, make sure that it is stable on the table surface.
- The product is not suitable for children as there is a risk of injury if used incorrectly.
- If the monitor arm is damaged, it must no longer be used.
- Regular checks of the stability and functionality of the product are recommended.
