Article Numbers: 155635, 155634

Safety Instructions:

- Avoid contact with hot surfaces above 100°C and temperatures outside -20°C to +100°C to prevent deformation.
- Ensure that the open-fronted storage box does not come into contact with sharp or corrosive chemicals or strong solvents in order to avoid material damage.
- Ensure that the box is only used within the specified load capacity of 20 kg and is not overloaded to avoid breakage or damage.
- The product is intended purely for the storage of small parts to prevent injury or damage.
- Keep individual parts out of the reach of small children to avoid the risk of choking.
