Safety Instructions:

- Suitable safety measures must be observed to ensure safe use of the open fronted storage box.
- The product is not suitable for contact with food.
- There is a risk of slipping when using the open-fronted storage box on uneven surfaces. Ensure that the box is stable.
- Do not exceed the load capacity of 40 kg to avoid the risk of tipping over or breakage.
- Do not store products near heat sources, as high temperatures can impair the material properties.
- Check for damage or cracks in the box immediately and stop using the box if it is damaged.
