Safety Instructions:

- Not suitable for children under 3 years: Choking hazard due to small parts.
- Take care during installation: Ensure that the cable is not damaged.
- Suitable for indoor use: Do not use outdoors as this can lead to electrical hazards.
- Risk of electric shock: Do not use near water sources.
- Ensure that the socket outlet is properly earthed to avoid electrical interference.
- Do not overload: Observe the maximum load of the socket strip to avoid fire or electrical damage.
- Before use, check that the socket strip and connections are intact.
- Only use the product in dry indoor areas, as it is not protected against water in accordance with protection class IP20.
- Keep the socket strip away from heat sources and direct sunlight.
- Apply the adhesive pads to a clean, dry and smooth surface before mounting.
- Make sure that the angled plug is not blocked to prevent overheating.
- Only use the USB charging sockets with devices that support the stated specifications.
