Safety Instructions:

- Danger to life if used incorrectly due to high pressing force (57 kN) and voltage (400 V).
- Observe protective measures against crushing hazards during operation of the press.
- Only allow trained personnel to operate the appliance.
- The machine must be installed and maintained in accordance with the safety regulations.
- The operating instructions must be read and understood before the appliance is put into operation.
- Ensure that no persons are in the danger zone of the pressing processes.
- Check cables and electrical components regularly for damage.
- The press must not be operated without the prescribed safety devices.
