Please note the technical data of the products!

**Article Numbers:** 36620, 36610, 36593, 36588, 30741, 30733

### Safety Instructions:

- Shelves with a height/depth ratio  $\geq 5 : 1$  must be secured against tipping (wall or floor anchoring).
- Shelf height of at least 1800 mm requires securing against tipping by wall or floor anchoring, especially with shelf ratios of 5:1 or more.
- Do not load beyond the maximum bay load and load capacity per floor.
- The maximum bay load of 500 kg and load capacity per shelf of 85 kg with even load distribution must be observed.
- Shelves may only be installed on a firm and stable base.
- Suitable measures must be taken to prevent the shelf from tipping over.
