Safety Instructions:

- Shelves with a height/depth ratio $\geq 5:1$ must be secured against tipping (wall or floor anchoring).
- Ensure that the maximum bay load of 500 kg and the load capacity per shelf of 85 kg are not exceeded.
- The shelves are height-adjustable in 100 mm increments, make sure that the load is evenly distributed to prevent tipping.
- Follow the safety instructions during assembly and use.
- Observe the necessary protective measures to avoid injury in the event of improper handling.
