Safety Instructions:

- Pay attention to the stability of the shelf to prevent it from tipping over.
- Only assemble shelving in accordance with the intended use, maximum load and instructions to prevent tipping or collapse.
- Keep the shelf clean and free of obstacles to avoid tripping hazards.
- Attach warnings that small parts are not suitable for children and that there is a choking hazard.
- The shelf should only be used by adults or under adult supervision.
- Keep the shelf away from damp places to prevent corrosion of the steel frame.
- Avoid using the shelf in an area with high temperatures or near open flames.
