Safety Instructions:

- Make sure that the shelf is securely and stably mounted to prevent it from falling over and to ensure the correct arrangement and stability.
- Only use the shelf in accordance with its intended use and taking into account the maximum weight in order to minimise the risk of instability and damage.
- Keep the shelf away from damp environments to prevent corrosion of the steel parts.
- Ensure that all open-fronted storage bins are properly inserted to prevent them from falling out.
- The product is designed for use by adults; children should not play near the shelf.
- Follow the installation instructions exactly and observe the operating instructions and safety information.
- Wear protective equipment when lifting or storing heavy objects.
- There is a risk of injury in the event of improper assembly or use.
