Article Numbers: 91222, 91221, 91220, 91219, 91218, 91217

Safety Instructions:

- Not suitable for children under 3 years of age as it may contain small parts. Avoid choking hazard due to tiny parts. Keep out of the reach of small children. Not suitable for children and not to be used as a toy.
- Protect from direct sunlight to avoid material distortion.
- Do not exceed the maximum load of 20 kg to prevent breakage or deformation. Do not overload the box. When using as a transport container, do not exceed the maximum load capacity.
- Avoid contact with sharp objects to prevent damage to the material. Pay attention to sharp edges or corners when handling to avoid injury.
- Use the product in a clean and hygienic manner to avoid health risks. Clean the box before first use. Follow the recommended cleaning instructions to avoid chemical reactions with cleaning agents.
- Ensure that the product is used in a temperature range of -20 to +100 degrees. Plastic material is temperature resistant from -20 to +100 degrees.
- Take care when using in damp environments; the product is not designed for contact with water.
- Before use, ensure that the box is not damaged or defective.
- Smooth inner walls make cleaning easier; regular cleaning recommended to prevent soiling.
- Caution: The container is heavy, carry it with both hands. Do not place on high surfaces to avoid the risk of falling.
- Suitable safety precautions must be taken when using for ESD-sensitive devices. Ensure ESD protection when used with electrical components.
- Keep the box away from chemical substances that could damage it. Check for compatibility before coming into contact with chemical substances.
- Not suitable for use with food as the product is not certified for this purpose. Safety note: Not suitable for contact with food.
- To avoid damage, do not drag the boxes across the floor.
- Store securely on a stable surface to prevent tipping over.
- Store the box out of the reach of small children to prevent unintentional play.
