Safety Instructions:

- Observe the maximum load capacity of 50 kg per drawer to avoid overloading and possible injuries.
- Use the central locking system to prevent unauthorised access.
- Do not overload drawers or pull excessively to prevent the cupboard from tipping over.
- Beware of collisions or impacts when moving the cabinet to avoid injury.
- The cabinet is not intended for use as a staircase or for supporting people.
- To avoid injury, ensure that the product is placed on stable and level surfaces.
- Children should not be left unattended with the product.
- When fully extending the drawers, ensure that no heavy or unstable objects are placed on the top edge of the cupboard to prevent it from tipping over.
- Before assembly or handling, ensure that there are no sharp edges that could cause injury.
