Safety Instructions:

- Make sure that the floor protection mat is suitable for your specific floor and is not used on slippery or unsuitable surfaces.
- Only use the mat for the intended applications and take care not to overload it or subject it to extreme mechanical loads.
- Keep the mat away from heat sources, open flames and extreme temperatures to prevent material damage due to overheating or deformation.
- Clean the mat regularly and do not use any aggressive or corrosive chemicals to prevent damage and impairment of adhesion.
- Check the mat regularly for wear or damage and replace it if necessary to ensure safety.
- Keep the mat out of the reach of children to avoid the risk of suffocation or injury from small parts.
- Ensure that the mat is used on flat, dry surfaces to prevent slipping or mould formation.
- The mat is not suitable for use outdoors or in areas with a constant flow of water.
- The mat is designed for hard and carpeted floors, although insufficient stability may occur if used incorrectly on carpets.
