

Product Safety Information

Splash protection blanket JT 900 HT mech.loadable,abrasion resistant

Manufacturer/Responsible Person: JUTEC Hitzeschutz und Isoliertechnik GmbH, Am Autobahnkreuz 6-8, 26180 Rastede, Deutschland

E-Mail: info@JUTEC.com

Please note the technical data of the products!

Article Numbers: 706327, 706326, 706324, 706323, 706322, 706321

Safety Instructions:

- Risk of suffocation due to improper use or handling (e.g. by careless persons or small particles).
- Risk of injury and burns when handling glowing materials or flying sparks - remove immediately in the event of contact.
- Not suitable for children under three years of age due to small parts.
- Materials are toxicologically harmless, but harmful to health if used improperly.
- Product is not fireproof - do not use near open flames or intense heat.
- Maintain a safe distance during welding work and ensure safe handling.
- Use only recommended in well ventilated areas to avoid hazardous vapours.
- Do not use or store on or near flammable materials.
- Do not use the ceiling if it is damaged or worn.
- Ensure product suitability for intended use.
- Ensure safe use in accordance with the instructions provided.
- Protect from heat sources to prevent melting.
- Ensure disposal in accordance with applicable regulations for industrial waste.
