**Article Numbers:** 723945, 723944, 723942

### Safety Instructions:

- Risk of injury from improper handling due to mechanical impact.
- Protect against moisture and aggressive chemicals, despite IP67 certification of insensitivity to dust and temporary immersion in water.
- Ensure that the caliper is correctly calibrated and the locking screw is correctly adjusted to ensure accurate readings.
- Observe the safety information and instructions for use.
- In the event of faults or malfunctions, contact the manufacturer immediately.
- Product is tested in accordance with DIN 862 and fulfils the necessary safety requirements.
- Before use, ensure that the product is not damaged.
- Despite high chemical resistance, take care to avoid contact with corrosive substances.
- Only use the product in accordance with the specified functions and properties and not in permanent exposure to water or dust, even if it is IP67-certified.
- Keep the product out of the reach of children to prevent misuse or accidental injury.
- Designed for industrial applications and should be used by trained personnel.
- Do not use the safety functions as a substitute for proper safety procedures.
