Safety Instructions:

- Choking hazard due to small parts (especially if handled incorrectly).
- Risk of electric shock from electrical components (increased with improper use).
- Take care with improper handling to avoid damaging the housing.
- Risk of injury due to improper use of the measuring tips.
- Observe the safety instructions for using the radio transmission.
- Only use the product in the intended area of application.
- Take care not to overload or damage the appliance.
- Protect the device from extreme temperatures and harmful chemicals.
- The device is protected against the ingress of water (IP67), but is not suitable for permanent use under water.
- Never clean the appliance with strong chemicals or abrasive materials.
- To avoid injury, all safety precautions should be observed during use.
- The appliance must be checked regularly for functionality and safety, as it is subject to mandatory testing.
