Safety Instructions:

- There is a risk of injury if used incorrectly.
- Do not use near water or in wet areas as this may increase the risk of short circuits.
- The calliper gauge must be handled with care due to its sharp edges and points.
- Recommended protective measures: Use gloves when measuring to avoid shards or fingerprints.
- The product should not be used by children without supervision and should only be used by trained personnel.
- Ensure that the product corresponds to the exact units of measurement and scales to avoid measurement errors.
- Before use, check the labelled safety instructions and the operation of the product.
- The measuring tips and components should be checked regularly for wear, damage and accuracy.
- Ensure that the product is used on a stable surface to avoid inaccuracies.
- Use only by trained personnel and keep unauthorised persons away.
- Ensure that the product is clean and undamaged, check for visible damage before use.
- Regular calibration and inspection in accordance with the manufacturer's specifications.
- Insert safety instructions in accordance with the General Product Safety Regulation.
- Protect the product from hazardous operating conditions.
- Include clear instructions for safe use.
- Use suitable protective devices for the measurement to avoid injuries.
