

Product Safety Information

Magnetic measuring stand R. 272mm Total H. 327mm Holding force 800 N HOLD TEC

Manufacturer/Responsible Person: Ingenieurbüro Thiermann GmbH, Paul-Friedländer-Str. 8, 65203 Wiesbaden, Deutschland
E-Mail: info@ibt-gmbh.de

Please note the technical data of the products!

Article Numbers: 723970, 723969, 723968

Safety Instructions:

- Avoid contact with water to prevent the risk of electric shock.
- Secure the appliance during operation to prevent it from falling over.
- Check the adhesive force of the magnetic base for functionality at regular intervals.
- Avoid using the device in the vicinity of electronic devices to prevent interference.
- Observe the maximum load capacity and do not exceed it.
- Caution: Strong adhesive force of 800 N can lead to injuries if the magnet inadvertently sticks to parts of the body.
- Caution: Improper use can lead to a risk of falling, especially in confined working areas.
- Recommended use: Only use in stable positions and under safe installation conditions.
- Ensure that the mechanical centre clamping and fine adjustment are secure before measurements are taken.
- Keep children and unauthorised persons away from the product to avoid injury.
- Beware of strong magnets. Only holds objects if the force of 320 N is not exceeded.
- Only use the product on stable and suitable surfaces.
- When using the articulated arm, make sure that fingers do not get caught in the joint mechanism to prevent finger injuries.
- The product is not suitable for use by children under 8 years of age as there is a risk of strangulation or suffocation.
- Make sure that there are no metal objects near the magnet to avoid injury.
- To prevent damage to surfaces, place and use the magnetic base correctly.
