Please note the technical data of the products!

Article Numbers: 723993, 723989, 723988, 723987

Safety Instructions:

- Risk of injury due to improper handling of the stand. Ensure that the tripod is used on a stable surface to prevent it from falling over.
- Always check that the magnetic base is properly attached before use. Ensure that the magnetic holder is securely positioned on a stable surface.
- Ensure that the product has no sharp edges or protruding parts that could cause injury.
- Avoid using the product in the vicinity of electronic devices, as strong magnetic fields can cause interference. Caution: Magnets can interfere with electronic devices. Do not use in the vicinity of electronic devices or magnetic cards, as the magnetic force can damage these devices.
- The product must not be used in the vicinity of pacemakers.
- Avoid using the product near electrical appliances to reduce the risk of electric shock.
- Provide instructions for safe use and attachment of the device to prevent accidents. Users should be provided with clear safety information to raise awareness of potential risks.
- The product is not suitable for use by children; appropriate measures should be taken to prevent access. It should not be used by children under supervision as it could cause injury.
- When working with the mechanical centre clamp, ensure that the surface is free of obstacles to avoid injury.
- Take care when using a magnetic measuring stand to avoid injury from crushing.
- The use of suitable protective equipment is recommended to avoid injury.
