Safety Instructions:

- The tape measure is not suitable for measuring under extreme conditions, as it can be damaged by external influences such as moisture and extreme temperatures.
- Learn how to use the appliance correctly to avoid injuries caused by improper use.
- The tape measure should be taut and stable before accurate measurements are taken to avoid injury.
- Keep out of the reach of children to minimise the risk of injury.
- Keep the tape measure away from sharp objects to prevent damage.
- Avoid excessive tension as this could damage the tape measure.
- Not suitable for children under 3 years of age as small parts may be present.
- Always secure the tape measure after use to prevent it from unrolling accidentally.
