Article Numbers: 728267, 728266, 728265, 728264

Safety Instructions:

- Not suitable for children under 12 years of age. The product is not suitable for children. There is a choking hazard due to small parts.
- Caution: Sharp edges and points can cause injuries. The use of protective gloves is recommended to prevent finger injuries.
- Observe the handling instructions to avoid contact with battery acid. Avoid skin contact with liquids or chemicals during use to prevent skin irritation.
- Check the product regularly for damage. Regularly check the technical documentation and keep it for 10 years.
- Failure to comply with the operating instructions may result in safety risks.
- Ensure that the product is designed and manufactured in accordance with the general safety requirements. Include clear instructions and safety information before use.
- Not designed for use by children, therefore keep away from children.
- Before preparing the product, check that no hazardous parts are present. Consider the use of the product and possible interactions with other products.
- Ensure that the device is properly calibrated before use to avoid incorrect measurements. Ensure that the caliper is calibrated before each use in order to obtain accurate measurement data.
- The use of a suitable housing is recommended to protect the measuring device from moisture and physical damage.
- Follow the manufacturer's instructions for zeroing and using the QuickLock function exactly. Before use, ensure that the locking screw is properly tightened to avoid unintentional measurement deviations.
- Observe water and sweat-resistant properties, but do not immerse in water.
- Inform the manufacturer or dealer immediately in the event of problems.
