### Safety Instructions:

- Use suitable personal protective equipment, including eye protection and hearing protection.
- Ensure that the machine is correctly mounted and stabilised.
- Ensure that all covers and safety devices are in place before operating the machine.
- Keep the work area clean and tidy to avoid tripping hazards and accidents.
- Avoid wearing loose clothing or jewellery that could get caught in moving parts.
- Never place your hands near the drill cylinder during operation.
- Only use the machine in the intended operating area and never disable safety devices.
- Carry out regular maintenance to ensure the safety and functionality of the machine.
- Find out about the emergency stop circuit and how to operate it in the event of an emergency.
