Safety Instructions:

- Caution: Choking hazard due to small parts and accessories, especially for children.
- Caution: Risk of electric shock, especially in the event of improper use or damage.
- Observe the maximum suction capacity of 4260 l/min and the negative pressure of 255 mbar to avoid overheating.
- Only use the vacuum cleaner in dry rooms to minimise the risk of electric shock.
- Ensure that the vacuum cleaner is only operated under proper and safe power conditions (230 V / 50 Hz).
- Use in accordance with the manufacturer's instructions to avoid operational and safety problems.
- The sound pressure level of 72 dB(A) can cause hearing damage; consider using hearing protection.
- Ensure that the inserts and accessories are correctly and securely attached before operating the appliance.
